## Weak Throat—Weak Lungs

Cold after cold; cough after cough! Troubled with this taking-cold habit? Better break it up. We have great confidence in Ayer's Cherry Pectoral for this work. No medicine like it for weak throats and weak lungs. Ask your doctor for his opinion. He knows all about it. His approval is valuable. Follow his advice at all times. No alcohol in this cough medicine. J.C. Ayer Co., Lowell, Mass.

Always keep a good laxative in the house. Take a dose when your cold first comes on. What is the best laxative for this? Ayer's Pills. Ask your doctor his opinion. Let him decide.

We carry some 2000 gallons of Colonial Paint. Do you not think that perhaps we might be able to supply your wants?

Plenty of odd rolls of roofing—soiled covers, but the quality the same as the regular goods—it sells, too. We carry 1600 squares of roofing, and ought to be able to suit anybody on this.

## Farrington Floor Finish

dries in one hour, and that's a fact—wouldn't you varnish your bath room if you knew that? Put it on anywhere with a cloth, too, if you wish.

These men are putting "Perfection" Roofing on the State Fair buildings at White River Junction.

## A Storekeeper Says:

"A lady came into my store lately and said: 'I have been using a New Perfection Oil Cook-Stove all winter in my apartment. I want one now for my summer home. I think these oil stoves are wonderful. If only women knew what a comfort they are, they would all have one. I spoke about my stove to a lot of my friends, and they were astonished. They thought that there was smell and smoke from an oil stove, and that it heated a room just like any other stove. I told them of my experience, and one after another they got one, and now, not one of them would give hers up for five times its cost.'"

The lady who said this had thought an oil stove was all right for quickly heating milk for a baby, or boiling a kettle of water, or to make coffee quickly in the morning, but she never dreamed of using it for difficult or heavy cooking. Now—she knows.

Do you really appreciate what a New Perfection Oil Cook-Stove means to you? No more coal to carry, no more coming to the dinner table so tired out that you can't eat. Just light a Perfection Stove and immediately the heat from an intense blue flame shoots up to the bottom of pot, kettle or oven. But the room isn't heated. There is no smoke, no smell, no outside heat, no drudgery in the kitchen where one of these stoves is used.

Hardwick, Vt., July 13, 1908.

Dear Sir: I am glad to say that the Reliance Woodpecker engine 4 h. p. purchased of you last fall, has given me entire satisfaction. It develops fully its rated power, easily kept in order, is easy to start and always starts and I consider it an ideal power for farm use. Last winter I saved quite a lot of money with this engine for my neighbors and in every case gave entire satisfaction. Can cut four cords of maple wood an hour and by selecting logs can cut five cords. Can cut a big two-horse load of ensilage corn, 1/2 inch long in 10 to 12 minutes.

Have also used engines for threshing, running circular saw and cream separator with equally good results.

Very truly yours,
